

# RACK SAFETY PRODUCTS

PALLET RACK • BULK RACK • STEEL SHELVING

Satisfies  
NFPA  
Standards!

U.S. Patent 8,919,585

*Clean, Innovative, Efficient... American Made!*

**THE MOST VERSATILE 50% OPEN DECK OR  
SHELF IN THE MATERIAL HANDLING INDUSTRY!**

**RackSafetyProducts.com • 951.395.0280**

## **MOST VERSATILE PALLET RACK DECKING ON THE MARKET!**

ProDeck50 is used in industrial pallet racking and shelving and offers the greatest features and benefits of any rack decking product on the market! Its versatility in design allows it to be used for many rack applications and meet all of the latest fire codes. This shelving decking has a smooth surface to prevent boxes from snagging as they are handled on the rack's deck as compared to wire deck shelving which is infamous for shredding boxed inventory as they are slid across the surface of the decking. Typical steel gauges for the ProDeck50 are available from 18-22 gauge, and can be ordered as high as 14 gauge depending on capacity requirements.

**PRODECK50'S PATENTED SHELVING AND STEEL DECKS ARE A SUPERIOR ALTERNATIVE TO WIRE MESH DECKS AND PUNCHED CORRUGATED DECKS**

### **APPLICATIONS**

- Retail storage or decking
- Small products or broken case picking
- Computer room shelving
- Steel shelving requiring 50% open area
- Bulk rack shelving requiring 50% open area
- Carpet rack
- Furniture rack
- Medical files

### **SPECIFICATIONS**

- Fits virtually any size beam
- Decking or shelves are constructed with multiple panels to complete a flat steel, high capacity shelf surface with 50% to 56% open area. Decks and shelves are available with panel widths from 5.875" thru 6.375"
- Profile: 1-1/4" to 2"
- Width: 17-1/2" to 25-1/2"
- Length: 14-5/16" to 96"
- Capacities vary with profile, length, and gauge of steel
- Capacities range from 450 lbs. to 5,000 lbs.
- Finish: steel is pre-galvanized
- Sheet metal thickness: 22 gauge, 20 gauge and 18 gauge
- Satisfies NFPA and fire code regulations
- ProDeck50 can be used as decking on pallet rack beams or can be used to create a shelf level WITHOUT a beam (additional versa supports needed)

# PALLET RACK, BULK RACK, AND STEEL SHELVING APPLICATIONS THAT REQUIRE 50% OPEN AREA TO SATISFY **NFPA** FIRE REGULATIONS

Satisfies  
NFPA  
Standards!

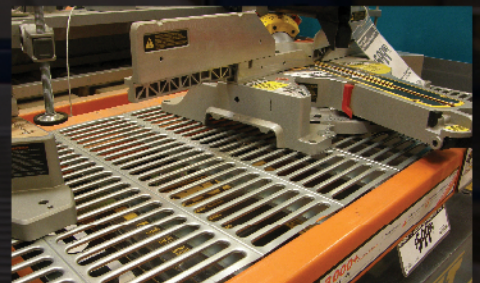

## 50% OPEN SPACE

Smooth, flat 50 percent open decking used with pallet racks and shelving, meets the requirements for NFPA13 Fire Code

## HIGH STRENGTH

ProDeck50 has a weight carrying capacity from 450 lbs. up to 5,000 lbs. per deck!

## HIGHLY VERSATILE

Using shelf supports ProDeck50 can also be used to increase the number of low profile shelves

## NO CATCH POINTS

Smooth surface prevents snag on pallets, boxes, carpet racks or expensive products
